

Dear Parents:

We are launching SafeUT at Pleasant Grove Jr. High and High School on Thursday, January 19th 2017. SafeUT is a new tool designed to provide confidential two-way communication with SafeUT crisis counselors or school staff through the SafeUT Mobile App.

The SafeUT Services are provided through the University of Utah's Crisis Center at the University Neuropsychiatric Institute (UNI) and all interactions are handled by licensed clinicians as part of their comprehensive crisis response services. Students who call or start a crisis chat or text through the mobile app or web will connect directly to a UNI crisis counselor at the UNI CrisisLine.

The UNI CrisisLine provides 24/7 crisis intervention and emotional support to anyone in any type of crisis. Students can also use the SafeUT phone app or website to send non-crisis tips to school officials regarding topics such as bullying, cyberbullying, gang activity, drug & alcohol activity, and more. All tips are completely anonymous.

SafeUT helps to provide students with a safe and secure school environment and it provides our school administration with the communication and management tools needed to help and manage on campus situations.

The SafeUT Mobile App is available in the Apple and Google Play stores. Search "P3 Tips" and select "SafeUT".
