## Administration Message

Dear Canyon View Patrons,

As we approach the end of the 2021-22 school year, we can hopefully come to better appreciate the importance of being resilient. The definition of resilient as found in the Webster Dictionary is "capable of withstanding shock without permanent deformation or rupture and tending to recover from or adjust easily to misfortune or change." The previous two school years have in many ways been a shock to our resilience with all that the COVID19 pandemic has brought. Has it been easy to recover or adjust to the challenges and trials it has brought?

I'm sure we have all had our moments when maybe it did seem easy which we have a tendency to forget whereas the times that were hard or may continue to be difficult can be etched in our daily thoughts if we allow them to be.

Albert Einstein once wrote on the chalkboard in his classroom:  $1 \times 9 = 9$ ,  $2 \times 9 = 18$ ,  $3 \times 9 = 27$ ,  $4 \times 9 = 36$ ,  $5 \times 9 = 45$ ,  $6 \times 9 = 54$ ,  $7 \times 9 = 63$ ,  $8 \times 9 = 72$ ,  $9 \times 9 = 81$ ,  $9 \times 10 = 91$ , suddenly chaos erupted in the classroom. Albert Einstein had made a basic mistake:  $9 \times 10$  isn't 91. Einstein calmly waited for everyone to be silent, then said, "Despite the fact that I analyzed nine problems correctly, no one congratulated me. But when I made one mistake, everyone started laughing. This means that even if a person is successful, society will notice their slightest mistake."

Let's focus on all of the problems and challenges we have overcome and learned from these last 3 years to strengthen our resilience to face the storms that still may be coming. Thank you to the wonderfully resilient Canyon View Junior High learning community of students, teachers, parents, and families that have made this school year a success.

Sincerely,  
Mike May, Assistant Principal
