Tradition
Accountability
No end to learning
Goal Oriented

The Mustang way

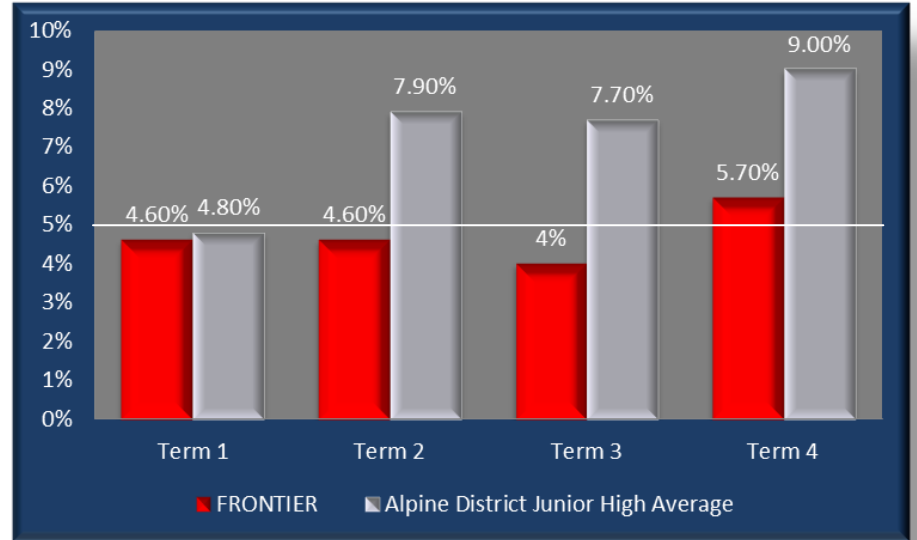

Two students, Maggie Mattinson and Joshua Gardner both competed in the state history bee and qualified for the national history bee. Maggie went to the National History Bee in Georgie and was able to compete against students from all over the country. Congratulations to Maggie for representing Frontier Middle School on a National Level.

Frontier Middle School had students qualify for the National History Bee this last summer!

Percent of Students Receiving an F

2013/2014

Our goal at Frontier Middle School is to have less than 5% of students receive a failing mark in any course each term. Teachers and students work to make sure that students are learning concepts and earning credit. Not only do we meet this goal, but we have far fewer students receiving a failing mark than the junior high average for the district.

SAGE Test Passing Results
