

Name: \_\_\_\_\_  
Period: \_\_\_\_\_

### Chapter 4.2 Worksheet

Read Pages 115-119 and answer the following questions:

1. Define "primary economic activities"
2. Define "nomadic" (not highlighted)
3. Define "subsistence farming"
4. Define "commercial farming"
5. Why do you think the farmers in the United States (about 4% of the workers) are able to grow more food than our country needs while the farmers in many developing countries (more than 50% of the workers) aren't able to grow enough food to feed their people?
6. Define "secondary economic activities"
7. Define "cottage industries"
8. Define "commercial industries"
9. Define "tertiary economic activities"
10. Define "quaternary economic activities"
11. The main difference between primary, secondary, tertiary, and quaternary economic activities is how the jobs relate to \_\_\_\_\_. (Choose one: natural resources, energy, food production)
12. Define "exports"
13. Define "imports"
14. What are two reasons governments try to limit imports? How do they do this?
15. Define "developed countries" (not highlighted)
16. Define "developing countries" (not highlighted)
17. Define "underdeveloped countries" (not highlighted)
18. Define "per capita Gross Domestic Product or per capita GDP" (not highlighted)

Write "P" for primary, "S" for secondary, "T" for tertiary, and "Q" for quaternary levels of economic activity next to the following:
